

Skills

- Java, Spring Boot, React, Node.js, Firebase, SQL, REST API, Docker, Android Development, PostgreSQL, Microservices

Experience

Software Engineer

Jul 2023 - May 2024

VIT Infotech

- Collaborated with cross-functional teams to integrate the Hajj passenger reservation system, enabling reservation lookup and verification using National ID.
- Implemented an automated Cron job to transmit reservation data to the Egypt's government two hours before flight departure, ensuring regulatory compliance and eliminating manual intervention.
- Tech Stack Java, Spring Boot, Hibernate, and React.

Projects

Book My Show Application

🔗 <https://github.com/Mohd-Nafees-2195/bookmyshow>

- Designed and developed a monolithic full-stack movie ticket booking system using Spring Boot and React.js.
- Containerized the monolithic application using Docker and managed deployment with Docker Compose, ensuring consistent environments and simplified deployment.
- Tech Stack: Java | Spring Boot | Spring Security | PostgreSQL | Hibernate | React | Node.js | REST API

Quiz Application

🔗 <https://github.com/Mohd-Nafees-2195/Rest>

- Initially developed the application as a monolithic architecture and later refactored it into microservices, improving scalability and maintainability.
- Designed and implemented Spring Boot-based microservices (Question Service and Quiz Service) and registered them with Eureka Server for dynamic service discovery and inter-service communication.
- Tech Stack: Java | Spring Boot | Spring Security | MySQL | Hibernate | Microservices

Student Project Management System

🔗 https://github.com/Mohd-Nafees-2195/android_java

- Designed and developed an Android application to manage and track student project activities at NIT Calicut, improving visibility into project progress and task completion.
- Implemented features for project creation, activity tracking, and status updates, enabling structured monitoring of student workflows.
- Tech Stack: Android | Firebase | Java

Achievements

[Spring boot and Hibernate](#), [Advance Hibernate](#), [SQL basics to advance](#), [Struts 2 framework](#), [Apache Kafka](#)

Education

NIT Calicut

2023

MCA/BCA

- Actively practiced Data Structures and Algorithms (DSA), strengthening problem-solving skills using arrays, strings, linked lists, stacks, queues, trees and hashing.
